

兔抗 UGCG 多克隆抗体

- 中文名称:兔抗 UGCG 多克隆抗体
- 英文名称: Anti-UGCG rabbit polyclonal antibody
- 别名: GCS; GLCT1
- 抗原: UGCG
- 储存: 冷冻(-20℃)
- 宿 主: Rabbit
- 相关类别: 一抗
- 反应种属: Human, Mouse, Rat
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	Glycosphingolipids (GSLs) are a group of mem brane components that contain lipid and sugar moieties. They are present in essentially all ani mal cells and are believed to have important r oles in various cellular processes. UDP-glucose ceramide glucosyltransferase catalyzes the first glycosylation step in glycosphingolipid biosynth esis. The product, glucosylceramide, is the core structure of more than 300 GSLs. UGCG is wid ely expressed and transcription is upregulated during keratinocyte differentiation.
-------------	---

Applications:	ELISA, IHC
Name of antibody:	UGCG
Immunogen:	Fusion protein of human UGCG
Full name:	UDP-glucose ceramide glucosyltransferase
Synonyms :	GCS; GLCT1
SwissProt:	Q16739
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human thyroid cancer
IHC Recommend dilution:	50-200
