

小鼠抗 FATE1 单克隆抗体

中文名称: 小鼠抗 FATE1 单克隆抗体

英文名称: Anti-FATE1 mouse monoclonal antibody

别名: CT43; FATE

抗原: FATE1

储存: 冷冻 (-20℃) 避光

宿主: Mouse

反应种属: Human , Dog , Rat , Monkey , Mouse

相关类别: 一抗

标记物: Unconjugate

克隆类型: mouse monoclonal

技术规格

Background:	This gene encodes a cancer-testis antigen that is highly expressed in hepatocellular carcinomas and other tumors and weakly expressed in normal tissues except testis. The protein is strongly expressed in spermatogonia, primary spermatocytes, and Sertoli cells in seminiferous tubules. This protein may have a role in the control of early testicular differentiation and cell proliferation.
Applications:	WB, IF
Name of antibody:	FATE1
Immunogen:	Fusion protein of human FATE1
Full name:	fetal and adult testis expressed 1 (FATE1)
Synonyms:	CT43; FATE
SwissProt:	Q969F0

WB Predicted band size:	21 kDa
WB Positive control:	HepG2, Hela, SVT2, COS7, Jurkat, MDCK, PC12, MCF-7 cell lysates
WB Recommended dilution:	500-2000
