

小鼠抗 SPDEF 单克隆抗体

中文名称： 小鼠抗 SPDEF 单克隆抗体

英文名称： Anti-SPDEF mouse monoclonal antibody

相关类别： 一抗

储 存： 冷冻（-20℃）

宿 主： Mouse

抗 原： SPDEF

反应种属： Human

标 记 物： Unconjugate

克隆类型： mouse monoclonal

技术规格

Background:	The protein encoded by this gene belongs to the ETS family of transcription factors. It is highly expressed in the prostate epithelial cells, and functions as an androgen-independent transactivator of prostate-specific antigen (PSA) promoter. Higher expression of this protein has also been reported in brain, breast, lung and ovarian tumors, compared to the corresponding normal tissues, and it shows better tumor-association than other cancer-associated molecules, making it a more suitable target for developing specific cancer therapies. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, WB
Name of antibody:	SPDEF
Immunogen:	Fusion protein of human SPDEF
Full name:	SAM pointed domain containing ETS transcription factor

Synonyms:	PDEF; bA375E1.3
SwissProt:	O95238
WB Predicted band size:	38 kDa
WB Positive control:	HeLa whole cell lysate
WB Recommended dilution:	200-1000
